

User Stories (PUS Web Application)

1. Planner

As a Planner, I want to...

1. **Upload weekly plan data** for each process, so users know what to work on.
 2. **View uploaded weekly plans** to check if everything is complete.
 3. **Update or delete a weekly plan** if there is a mistake or schedule change.
-

2. Casting

As a Casting, I want to...

1. **Upload Material Transfer Notice** so I can send material with recorded.
 2. **Upload MTN is Mandatory** so the work center that I send can receive and process their own material.
 3. **One Account to Upload Multiple From** (AL, ZN-PR, ZN-FR, ZN-A2, ZN-A3)
 4. **List Material Transfer Notice** can look at all material that I sent.
-

3. User

As a User, I want to...

1. **See my weekly plan** so I know what task to do.
 2. **Input CPM data** for my weekly plan to show my progress.
 3. **Input Material Transfer Notice** as received data by Job Number, I can't process material before I received material.
 4. **Input material data**, Good and scrap so material records are accurate.
 5. **I request to edit my data** if I made a mistake during input.
 6. **Check the status of my edit request** to see if it was approved or rejected.
-

4. Superior

As a Superior, I want to...

1. **See all edit requests from users under me** to review and take action.
 2. **Approve edit requests** if the reason is valid.
 3. **Reject edit requests** if the reason is not acceptable.
 4. **View reports and input from my users** to monitor their work and performance.
-

5. Viewer

As a Viewer, I want to...

1. **View all reports and dashboards** to monitor overall performance and data.
2. **Have no access to edit or input data** to keep the system safe.
3. **View weekly progress details** based on planner's plan and user input.

Summary

Role	Main Activities
Planner	- Upload weekly plans for each process - View, update, or delete plans
Casting	- Upload material transfer notice – see all uploaded file
User	- View personal weekly plan - Input CPM and material data – Input Material Transfer Notice - Request data edits - Track status of edit requests – View my own report
Superior	- Review edit requests from users - Approve or reject requests - View reports and user inputs
Viewer	- View all reports and dashboards - No access to edit or input anything - Monitor weekly progress
